AMENDMENTS

IN THE ABSTRACT:

Please delete entirely the ABSTRACT as it appears in the original application and replace with the following:

A universal extra shade tent structure and hand held umbrella includes a hand held umbrella which has a frame assembly including a hand held lever which is configured to be held by a hand of a user, and a plurality of umbrella arms which can be extended outwardly and radially and downward from a distal end of a handle of the hand held lever, and a soft material umbrella roof which extends over the umbrella arms; three or more hard poles with special appliances on ends of the hard poles are adapted for connection to ends of umbrella arms of the hand held umbrella, the hard poles extending downward from distal ends of the umbrella arms; and one or more soft light walls attached to the hard poles and extending downward from the umbrella arms and from the umbrella roof and between the hard poles to form an enclosure within the hard poles and under the umbrella roof.
